

Customer Portal Log-In

Tips and things to know when signing into your Customer Portal for the first time:
The portal can be found by going to ACCESS NEVADA @ <http://dwss.nv.gov/apply/apply>

~~ Register for Access Nevada ~~

Step 1: Navigate to <http://dwss.nv.gov/apply/apply> and click the “Child Support Customer Services Portal”; the login page will display

Step 2: Click on the Create New Account link. The “Create New Account” page will display

Note: If you are unsure if you have ever been registered for Access Nevada, then click on the Forgot Username? link. Filling out the information will confirm if you had previously setup a profile

To register a new account, please complete the following form.
Required entries are marked with an asterisk "*"

Create a Username*

Enter the name you will use to login each time you need to access services. Enter a value easy for you to remember.

• New password may not have been used previously.

[Multi-Factor Authentication Management](#)

Step 3: Fill in all required information and click the CONTINUE button

Note: Remember the Username and Password you create. This will be used for setting up Multi-Factor Authentication (MFA) and linking to information in the Customer Service Portal (cPortal)

Step 4: Click the I Agree checkbox. This acknowledges that you have read and agree to the Terms of Use for Access Nevada

Step 5: Click the CONTINUE button. The “Success” page will display

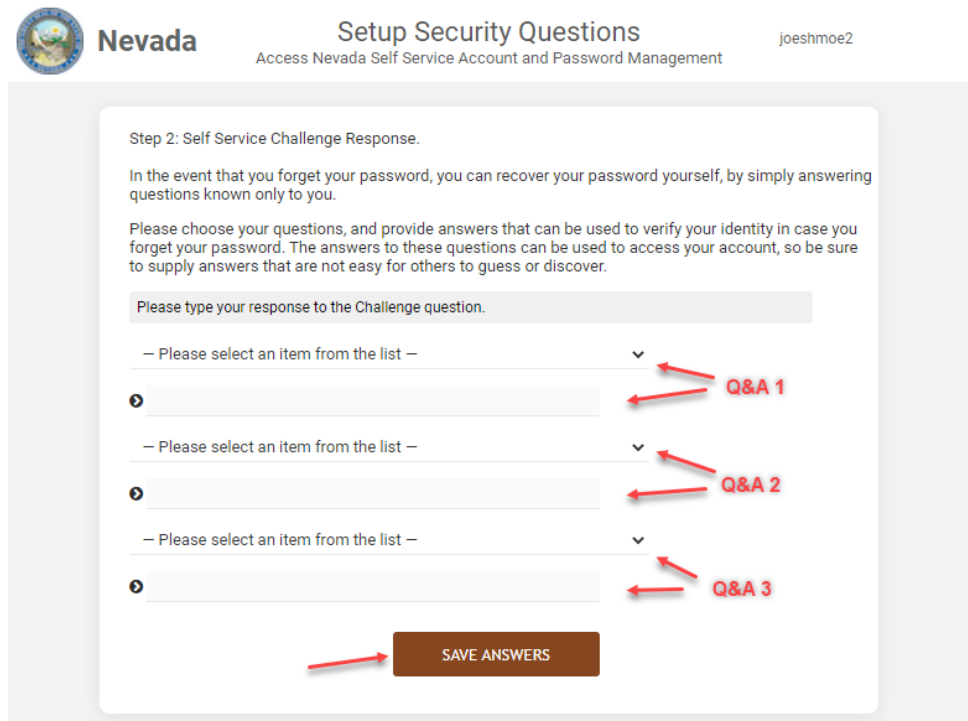

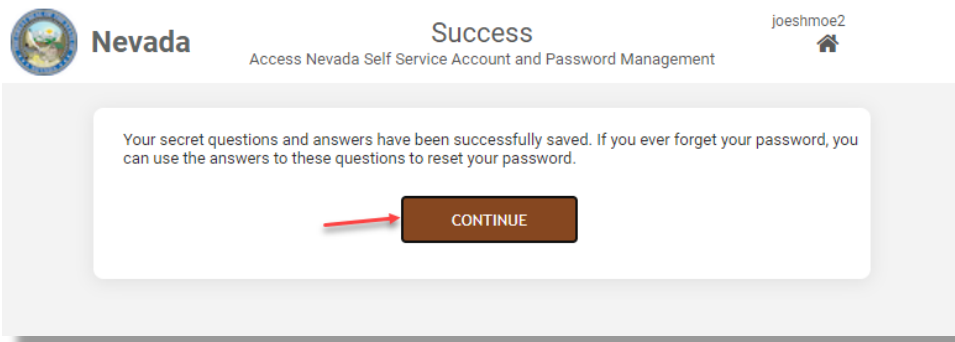

Step 6: Click the CONTINUE button. The “Setup Security Questions” page will display

Step 7: Select questions and enter answers for all three (3) challenge questions. Be sure to use something you can remember

Step 8: Click the SAVE ANSWERS button. The “Success” page will display

Note: These challenge questions will be used for the self-service password reset ability found by clicking the Forgot Password? link on the login page

Step 9: Click the CONTINUE button. You will be returned to the login page. The next step is to set up Multi-Factor Authentication

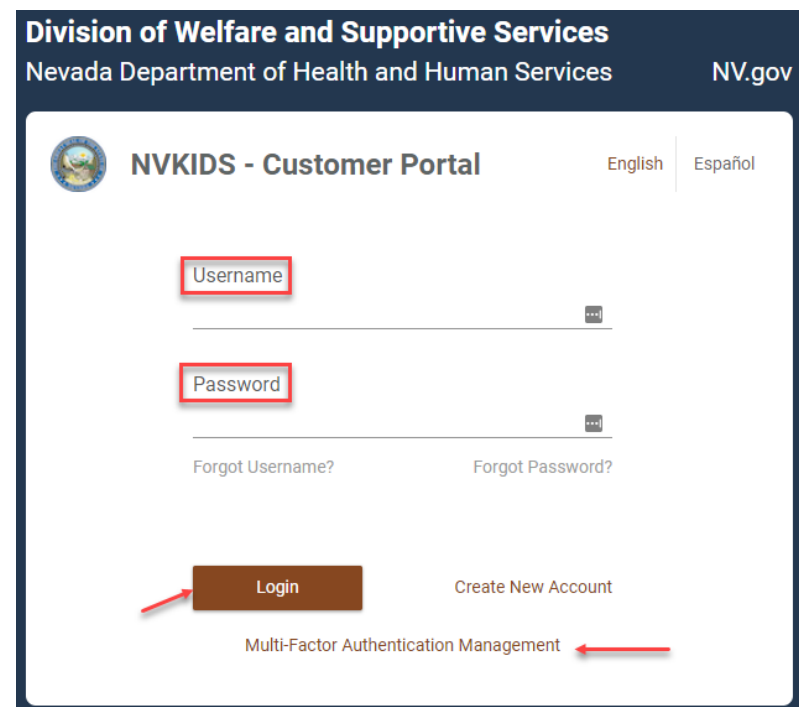

~~ Setup Multi-Factor Authentication (MFA) ~~

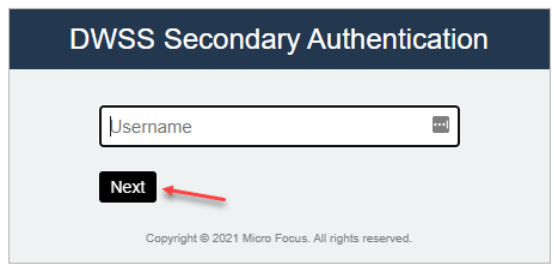

Step 1: Navigate to <http://dwss.nv.gov/apply/apply> and click either the "Child Support Customer Service Portal" link. The login page will display

Step 2: Using the Username/Password you registered for Access Nevada with, enter those values and click the Login button; a page with a message of "Authenticator not enrolled..." and a link will display

Step 2a: If you have already set up MFA and would like to make changes, click the Multi-Factor Authentication Management link; the "DWSS Secondary Authentication" page will display

Step 3: Click the here link; "DWSS Secondary Authentication" page will display

Authentication Methods

Enrolled methods are authenticators that you have already enrolled, and can be used to sign in.
OTP methods are one-time password authenticators.

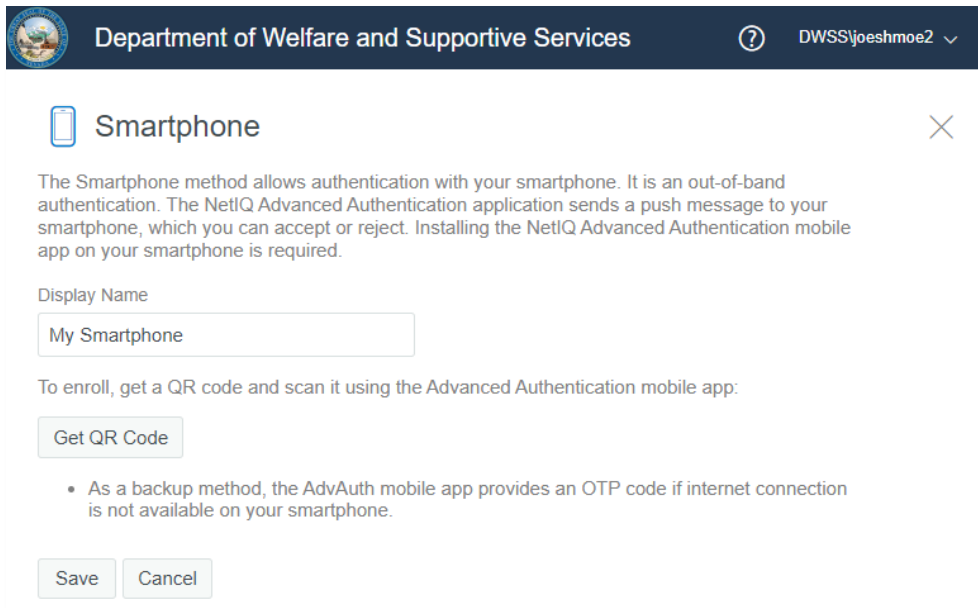

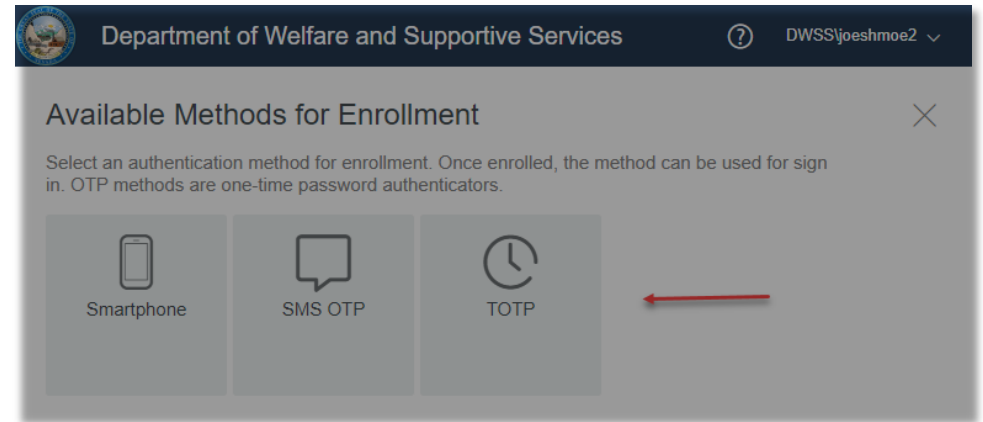

Your Enrolled Single Methods for sign in

Auto-created LDAP password

Add

Step 9: Select one of the options provided and configure the option per the instructions

Recommendation: SMS OTP (Step 9b) is the quickest and easiest to setup; however, you may setup all methods and choose which to use when signing into cPortal

Step 9a: Smartphone – this method requires download of the “NetIQ Advanced Authentication” app to your smartphone that will receive push notification that you must respond to as your 2nd authentication

Step 9a-1: Enter how you would like to see this option displayed to you when presented in the dropdown list during log in

Step 9a-2: Once the smartphone app is downloaded, click the Get QR Code button to have a QR code display to then scan into the app for setup

Step 9a-3: Click the Save button; the “Authentication Methods” page will display once again and should display this option

Step 9b: SMS OTP – sends a code to your phone using text messaging that you will then enter as your 2nd authentication

Step 9b-1: Enter how you would like to see this option displayed to you when presented in the dropdown list during log in

Step 9b-2: Enter your mobile number in the Override Mobile Phone field

Step 9b-3: Click the Save button; the “Authentication Methods” page will display once again and should display this option

The screenshot shows a configuration window titled "SMS OTP" with a close button (X) in the top right corner. The window header includes the Department of Welfare and Supportive Services logo and the user name "DWSSjoeshmoe2". The main text explains: "The SMS One-time Password (OTP) method sends a text message to your mobile phone including an OTP. The OTP has to be used within a specified timeframe." Below this, there is a "Display Name" field containing "My SMS OTP". A note states: "Your mobile phone unknown (from corporate directory). To override for this method, enter Override Mobile Phone." There is an "Override Mobile Phone" field which is currently empty. At the bottom, there are "Save" and "Cancel" buttons.

The screenshot shows a configuration window titled "TOTP" with a close button (X) in the top right corner. The window header includes the Department of Welfare and Supportive Services logo and the user name "DWSSjoeshmoe2". The main text explains: "The Time-based One-time Password (TOTP) method generates an OTP through a hardware OTP token or the NetIQ Advanced Authentication mobile app. Once generated, the OTP must be used within a specified timeframe." Below this, there is a "Display Name" field containing "My TOTP". A section titled "Enroll this method using one of the following:" contains two bullet points: "In the OATH Token section, specify the OATH Token Serial Number, which is usually found on the back of the token. Generate and specify an OTP from the token." and "Click Get QR Code, then scan the QR code using a smartphone app." Below the text is a section titled "OATH Token" with a scrollable area containing an "OATH Token Serial Number" field and a "One-time Password (OTP)" field with a lock icon. At the bottom, there is a "Get QR Code" button and "Save" and "Cancel" buttons.

Step 9c: TOTP – a OATH token, you own, in conjunction with a smart phone app, “NetIQ Advanced Authentication” app that must be downloaded to your smartphone, to provide a time-limited, one-time password to enter as your 2nd authentication

Step 9c-1: Enter how you would like to see this option displayed to you when presented in the dropdown list during log in

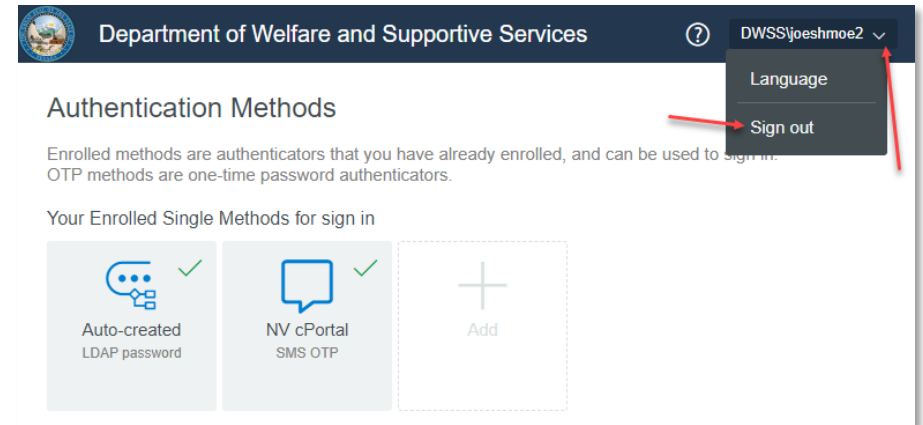

Step 9c-2: Enter the OATH Token Serial Number

Step 9c-3: Enter the OATH Token’s One-Time Password (number displayed in the window of the token)

Step 9c-4: Once the smartphone app is downloaded, click the Get QR Code button to have a QR code display to then scan into the app for setup

Step 9c-5: Click the Save button; the “Authentication Methods” page will display once again and should display this option

Step 10: Click the down arrow, next to your Username, in the right corner, and select the “Sign out” option. If you would like to add more Authentication Methods, you may repeat the instructions in Step 9

~~ Log in and link to data in cPortal ~~

For the purposes of this instruction, we are using the most common secondary authentication method, SMS OTP.

Step 1: Navigate to <http://dwss.nv.gov/apply/apply> and click either the “Child Support Customer Service Portal” link. The login page will display

Step 2: Using the Username/Password you registered for Access Nevada with, enter those values and click the Login button. The “DWSS Secondary Authentication” page will display and you will receive an SMS text message with your one-time password.

If you have more than one secondary authentication method, a combobox will be displayed to select which method you would like to use, which you will select and then click the Next button

Step 3: Enter the one-time password you received through the SMS text message.

Step 4: Click the Next button; the service portal will display
