

The Nevada Division of Welfare and Supportive Services (DWSS) has been given the opportunity through the American Rescue Plan Act (ARPA) of 2021 Pandemic Emergency Assistance Fund (PEAF) to further assist needy Nevada families impacted by COVID-19.

All Nevada TANF households eligible in the month of November 2023, and which have not been identified as having received another PEAFF benefit, will receive a one-time automatic payment of \$71 for each child determined eligible on the household's case in the month of February 2024. This benefit will be issued as a cash payment and is anticipated to be deposited onto the current Electronic Benefits Transfer (EBT) card linked to the case in the month of November 2023. If you do not currently have an EBT card, please be sure to visit your local Welfare office and provide proof of ID to obtain a card. The intent of this payment is to assist families with children with school and/or winter clothing needs to help alleviate some of the additional burdens resulting from the COVID-19 pandemic.

Your PEAFF payment will not be counted in your Nevada SNAP or Nevada Medicaid case as income.
