

**Child Care and Development Fund**  
**FACT SHEET**  
*July, 2006*  
*Nevada*

### **Caseload**

- 6,805 children were served this month in this program
- 3,966 families received subsidies for childcare through this program
- 5.6% of the families entered the program during this period
- Clark County accounted for 70.2% of all families served

### **Children**

- 71.2% of children were served in licensed care
- 1.7% of children were cared for by relatives
- Children under 1 year of age were in child care an average of 144 hours per month
- School-age children (ages 6 and older) constitute 37.4% of all children served
- White children accounted for 55.4% of all children served

### **Families**

- 93.0% of families received subsidies because of employment
- 86.2% of families had copayments, at an average of 7.1% of income
- The average number of children served per family was 1.7
- 91.2% of families were headed by a single parent
- 14.6% of families listed TANF as a source of income

### **Expenditures**

- The average cost of care this month per child was \$344 (monthly subsidy + parent fee)
- Parents paid 21.0% of the cost and the program paid 79.0%
- Average monthly expenditures for children under 1 year of age was \$420
- Average monthly expenditures for school-age children (ages 6 and older) was \$282
- 69.4% of total expenditures were for children under 6 years of age

### **Counties**

- The highest average cost of care was in Elko County at \$425 per child
- Mineral County ranks first in relative care statewide with 25.0% of all children cared for by relatives.
- The county with the greatest percent of TANF recipients in the caseload was Churchill County, where 22.2% of families receiving child care subsidies also received income from TANF

**Child Care and Development Fund**
