CCDF Plan Effective Date: October 1, 2013
Amended Effective: _____
1.3. CCDF Program Integrity and Accountability

Program integrity is defined to include efforts that ensure effective internal controls over the administration of CCDF funds. The Lead Agency is responsible for monitoring programs and services, ensuring compliance with the rules of the program, promulgating rules and regulations to govern the overall administration of the plan and oversee the expenditure of funds by sub-grantees and contractors. (§ 98.11(b)) Accountability measures should address administrative error, which includes unintentional agency error, as well as address program violations, both unintentional and intentional, that may or may not result in further action by the Lead Agency, including those cases suspected of and/or prosecuted for fraud.

1.3.1. Describe the strategies the Lead Agency will utilize to ensure effective internal controls are in place.

The description of internal controls may include, but is not limited to a description of processes to ensure sound fiscal management, to identify areas of risk or to establish regular evaluation of control activities.

DWSS has a child care system in place (Nevada Child Care System –NCCS) which administers child care funds for eligible parents in Nevada, and supports the collection, storing and reporting of information to the federal government. It determines participant eligibility, processes attendance rosters, provides case management capabilities and authorizes payments to child care providers. In addition, the system interacts with existing Welfare databases and provides data and reports for continual monitoring.

DWSS has internal programmatic controls in place to review and approve all requests for funds.

DWSS Accounting Department has procedures in place to guarantee funds can be traced to a level of expenditure to establish funds have not been used in violation of any state or federal requirements.

DWSS Investigations & Referral Unit has procedures in place to investigate cases which are referred when suspicious circumstances exist. This unit also works with child care staff to determine the value of beets paid versus what should have been paid when payment circumstances are determined to be incorrect and purse repayment of the dept.

Administrative disqualification penalties are imposed when it is determined applicants/participants have intentionally violated program rules. If it is determined a child care provider has intentionally violated program rules they are terminated from the program.

1.3.2 Describe the processes the Lead Agency will use to monitor all sub-recipients.

Lead Agencies that use other governmental or non-governmental sub-recipients to administer the program must have written agreements in place outlining roles and responsibilities for meeting CCDF requirements (98.11 (a) (3))

**Definition**: A sub-recipient (including a sub-contractor and or sub-grantee) is a non-Federal entity that expends Federal awards (contract or grant) received from another entity to carry out a Federal program, but does not include a vendor nor does it include an individual who is a beneficiary of such a program. OMB Circular A-133 Section 210 provides additional information on the characteristics of a sub-recipient and vendor (http://www.whitehouse.gov/omb/circulars/a133_compliance_supplement_2010). The description of monitoring may include, but is not limited to, a discussion of written agreements, fiscal management, review of policies and procedures to ensure compliance with CCDF regulations, monitoring/auditing contractors or grantees to ensure that eligible children are served and eligibility documentation is verified, and establishing performance indicators or measures related to improper payments.

**DWSS has direct contracts with non-profit agencies and Inter local Agreements with other state agencies. These contracts and agreements allow for ongoing monitoring by the Child Care and Development Program as well as DWSS Program, Review and Evaluation Program (PRE) and Investigations and Recovery Program (I&R).**

**DWSS Program Management Evaluations** – administrative staff review a sampling of cases to ensure documentation supports case decision and case actions are in accordance with policy.

**DWSS Program, Review and Evaluation (PRE)** – PRE staff review a sampling of cases and perform independent verifications to determine correct payments have been made.

**Supervisory Reviews** – in-office staff reviews a sampling of cases to ensure case actions are in accordance with policy and the eligibility decision and benefit level is correct.

**Audits** - audits are completed by divisional staff, other state agencies and independent auditing companies to ensure sub-recipients are accurately administering CCDF funds.

1.3.3. Describe the activities the Lead Agency will have in place to identify program violations and administrative error to ensure program integrity using the chart below.

Program violations may include intentional and unintentional client and/or provider violations as defined by the Lead Agency. Administrative error refers to **areas identified through the Error Rate Review** process (98.100). Check which activities, if any, the Lead Agency has chosen to conduct.

Nevada implemented a new computer system, Nevada Child Care System (NCCS), in June 2009. This system interfaces with NOMADS, the Nevada computer system that is used to determine eligibility for TANF, SNAP, and Medicaid.

PRE staff review a sampling of cases and perform independent verifications to determine correct payments have been made. A monthly review of sample cases includes review of provider attendance/billing records. A monthly report is provided which includes trend analysis.

Audits are completed by divisional staff, other state agencies and independent auditing companies. Client and provider records are included in these audits.

Reviews and trainings are completed by DWSS staff and Child Care contract staff. In addition, supervisory reviews are completed by contracting (sub-recipient) staff.

**For any option the Lead Agency checked in the chart above other than none, please describe** *Working with DWSS Investigations & Recovery Unit.* Improper payments (unintentional or intentional) are investigated and when determined are calculated. Notification is sent to the client to set up a payment and if applicable criteria is met, court action can be pursued.

**For all provider overpayments the payment is reduced in the following month(s). If the provider is no longer an eligible subsidy provider, the overpayment balance is forwarded to DWSS Investigations & Recover Unit who pursue repayment, including court action.**

1.3.5. **What type of sanction, if any, will the Lead Agency place on clients and providers to help reduce improper payments due to program violations?**

- None
- ✗ Disqualify client. If checked, please describe, including a description of the appeal process for clients who are disqualified
Individuals found to have committed an intentional program violation are penalized as follows:

**NEON Funded/TANF Recipient Penalties**
The individual found to have committed the IPV will be ineligible for TANF benefits for a period of twelve (12) months for the first violation, twenty-four (24) months for the second violation, and permanently for the third violation. During the ineligible period, the individual is required to participate in NEON work activities unless otherwise exempt; therefore, the individual will be entitled to NEON support services, such as child care benefits.

**Non-TANF Recipient Penalties**
After they are determined eligible, the child care subsidy benefits are decreased by two (2) subsidy percentage steps for a period of six (6) calendar months for the first occurrence, three (3) subsidy percentage steps for twelve (12) calendar months for the second occurrence and the household is permanently disqualified from the receipt of child care assistance for the third occurrence. Issues sent to the Hearings Unit are resolved on a case-by-case basis. Only written decisions issued by the hearings officer and state or federal courts are enforceable. The formal written decision order may:

- Deny or approve the request for a hearing;
- Deny or approve the request for an administrative penalty based on a hearing;
- Approve, with modification of the penalties.

Individuals who disagree with the decision of the hearings officer may appeal their case to district court within ninety (90) days of the date of the hearing officer’s decision.

**Disqualify provider.**
- Disqualify provider. If checked, please describe, including a description of the appeal process for providers who are disqualified.

  If it has been validated by DWSS I&R Unit a provider has committed fraud, the Chief of the Child Care and Development Program will render a decision on appropriate action to be taken against a provider. The penalty can be either suspension for an appropriate amount of time or termination form the subsidy program. The Chief’s decision is final and cannot be appealed.

## 2.2. Family Outreach and Application Process

Lead Agencies must inform parents of eligible children and the general public of the process by which they can apply for and potentially receive child care services. (658D(b)(1)(A), 658E(c)(2)(D) & (3)(B), §§98.16(k), 98.30(a)-(e). **Note** - For any information in questions 2.2.1 through 2.2.10 that differs or will differ for families receiving TANF, please describe in 2.2.11.

### 2.2.1. By whom and how are parents informed of the availability of child care assistance services under CCDF? (658E(c)(2)(A), §98.30(a))

Check all agencies and strategies that will be used in your State/Territory.

- CCDF Lead Agency
- TANF offices
- Other government offices
- Child care resource and referral agencies
- Contractors
- Community-based organizations
- Public schools
- Internet (provide website): [dwss.nv.gov](http://dwss.nv.gov); [childrensbabinet.org](http://childrensbabinet.org); [lasvegasurbanleague.org](http://lasvegasurbanleague.org)
- Promotional materials
- Community outreach meetings, workshops or other in-person meetings
- Radio and/or television
- Print media
2.2.2. How can parents apply for CCDF services?
Check all application methods that your State/Territory has chosen to implement.

☐ In person interview or orientation
☐ By mail
☐ By Phone/Fax
☐ Through the Internet (provide website) ______
☐ By Email
☐ Through a State/Territory Agency
☐ Through an organization contracted by the State/Territory
☐ Other. Describe: ______

2.2.3. Describe how the Lead Agency provides consumer education to parents applying for CCDF assistance to promote informed choices about the quality of care provided by various providers in their communities.

Lead Agencies must certify that the State/Territory will collect and disseminate to parents of eligible children and the general public, consumer education information that will promote informed child care choices(658E (c)(2)(G), §98.33).

For example, memorandums of understanding with resource and referral agencies to provide consumer education to families applying for CCDF assistance, providing parents with provider lists showing licensing history and/or Quality Rating and Improvement System (QRIS) ratings, or informational brochures that address importance of quality and different care options available.

The Lead Agency contracts with the Children’s Cabinet and Las Vegas Urban League CCR&R services who assist families in finding and selecting child care. Case managers provide clients information regarding all child care options (licensed child care; recreation programs; family, friend and neighbor (FFN) care). The case manager reviews the application and client information to identify the client’s work schedule, transportation needs, child development needs, and cost of child care with overages and co-payments. The case manager then discusses with the client the child care arrangement and reviews any potential barriers with the client.

The client is then referred to an in-house resource and referral specialist for a quality child care consultation and referral. The resource and referral specialist consults with the client on the importance of quality child care, what it looks like, and how to find it. The client is provided a customized list of child care providers based on identified need, a quality child care brochure (includes a checklist), and other materials on child care such as the cost of care, licensing ratios and requirement and other financial assistance options for child care. The client is also added to the newsletter mailing list to receive quarterly information on early education and care. If the client chooses a family, friend, or neighbor provider, the case manager will work with the client and the resource and referral specialist to schedule a family friend and neighbor registration.
2.2.4. Describe how the Lead Agency will support child care programs to increase the likelihood that CCDF-served children receive higher quality care as defined in your State/Territory.

For example, methods used to promote upward movement in quality rating and improvement system, methods used to encourage high quality programs to participate in the subsidy program such as tiered reimbursement, or incentives used to support high quality programs in rural, suburban, urban, and low-income communities. At this time Nevada’s QRIS is only open to centers. Centers achieving a star rating of 3, 4, or 5 stars receive an increased reimbursement (6%, 9%, or 12%). For home providers, they are eligible to receive a 15% reimbursement increase if they are nationally accredited. Coaching, training, and grants are available to both centers and home providers.

2.2.5. Describe how the Lead Agency promotes access to the CCDF subsidy program? Check the strategies implemented by your State/Territory.

- Provide access to program office/workers such as:
  - Providing extended office hours
  - Accepting applications at multiple office locations

  - Developing web-based and/or phone-based application procedures
  - Coordinating eligibility policies across programs. List the program names TANF and SNAP
  - Streamlining verification procedures, such as linking to other program data systems

    (Note: this period of unemployment should be included in the Lead Agency’s definition of working, or job training/educational program at 2.3.3).
  - Other. Describe: ______

- Other. Describe: ______
- None

Child Care and Development Fund (CCDF) Plan

☐ Establish two-tiered income eligibility to allow families to continue to receive child care subsidies if they experience an increase in income but still remain below 85% of State median income (SMI)

☐ Synchronize review date across programs. List programs: ______

☐ Longer eligibility re-determination periods (e.g., 1 year). Describe ______

☑ Extend periods of eligibility for families who are also enrolled in either Early Head Start or Head Start and pre-k programs. Describe
  After initial application, reapplications are not required for Early Head Start Children until they move to Head Start. Once initial eligibility is approved for Head Start children are not required to reapply until they are no longer eligible for Head Start.

2.2.9. Describe how the Lead Agency documents and verifies applicant information using the table below. (§98.20(a))
Check the strategies that will be implemented by your State/Territory. Attach a copy of your parent application for the child care subsidy program(s) as Attachment 2.2.9 or provide a web address, if available dwss.nv.gov

Reminder – Lead Agencies are reminded that, for purposes of implementing the citizenship verification requirements mandated by title IV of Personal Responsibility and Work Opportunity Reconciliation Act, only the citizenship and immigration status of the child, who is the primary beneficiary of the child care benefit, is relevant for eligibility purposes. Verification of child support status is required at initial application, reapplication and any time a change in child support occurs. Possible sources of verification are (not all inclusive): printout from Nevada child support case, copy of checks, copy of support agreement issued by court, written statement from non-custodial parent, etc.</td>

2.2.12. Informing parents who receive TANF benefits about the exception to the individual penalties associated with the TANF work requirement

The regulations at §98.33(b) require the Lead Agency to inform parents who receive TANF benefits about the exception to the individual penalties associated with the work requirement for any single custodial parent who has a demonstrated inability to obtain needed child care for a child under 6 years of age. Lead Agencies must coordinate with TANF programs to ensure, pursuant that TANF families with young children will be informed of their right not to be sanctioned if they meet the criteria set forth by the State TANF agency in accordance with section 407(e)(2) of the Social Security Act.

In fulfilling this requirement, the following criteria or definitions are applied by the TANF agency to determine whether the parent has a demonstrated inability to obtain needed child care. schedule of a parent, are not affordable, not easily accessible or do not meet quality standards as defined by the parent.

2.4. Sliding Fee Scale and Family Contribution

The statute and regulations require Lead Agencies to establish a sliding fee scale that varies based on income and the size of the family to be used in determining each family's contribution (i.e., co-payment) to the cost of child care (658E(c)(3)(B) §98.42).

☒ No.

2.4.5. The Lead Agency may waive contributions from families whose incomes are at or below the poverty level for a family of the same size. (§98.42(c)).

2.5. Prioritizing Services for Eligible Children and Families

At a minimum, CCDF requires Lead Agencies to give priority for child care assistance to children with special needs, or in families with very low incomes. Prioritization of CCDF assistance services is not limited to eligibility determination (i.e., establishment of a waiting list or ranking of eligible families in priority order to be served). Lead Agencies may fulfill priority requirements in other ways such as higher payment rates for providers caring for children with special needs or waiving co-payments for families with very low incomes (at or below the federal poverty level). (658E(c)(3)(B), §98.44)
2.5.1. How will the Lead Agency prioritize child care services to children with special needs or in families with very low incomes? (658E(c)(3)(B), §98.44)
Lead Agencies have the discretion to define *children with special needs* and *children in families with very low incomes*. Lead Agencies are not limited in defining *children with special needs* to only those children with physical or mental disabilities (e.g., with a formal Individual Education Plan (IEP) required under the Individuals with Disabilities Education Act (IDEA)). Lead Agencies could consider children in the child welfare system, children of teen parents, or homeless children as examples of *children with special needs*.

d) How are payment rates for child care services provided through grants/contracts determined?

Rates are paid for the entire month (Monday thru Friday only) of service if the child attends for only one day.

e) What is the estimated proportion of direct services that will be available for child care services through grants/contracts? 29%

2.6.3. How will the Lead Agency inform parents and providers of policies and procedures for affording parents unlimited access to their children whenever their children are in the care of a provider who receives CCDF funds? (658E(c)(2)(B), §98.31)

Check the strategies that will be implemented by your State/Territory.

2.6.4. The Lead Agency must allow for in-home care (i.e., care provided in the child’s own home) but may limit its use. (§§98.16(g)(2), 98.30(e)(1)(iv))

Will the Lead Agency limit the use of in-home care in any way?

☐ No
☒ Yes. If checked, what limits will the Lead Agency set on the use of in-home care? Check all limits the Lead Agency will establish.
☒ Restricted based on minimum number of children in the care of the provider to meet minimum wage law or Fair Labor Standards Act
☒ Restricted based on provider meeting a minimum age requirement
☐ Restricted based on hours of care (certain number of hours, non-traditional work hours)
☐ Restricted to care by relatives
☐ Restricted to care for children with special needs or medical condition

☐ Other. Describe

2.6.5. Describe how the Lead Agency maintains a record of substantiated parental complaints about providers and makes substantiated parental complaints available to the public on request. (658E(c)(2)(C), §98.32)

The Lead Agency or contract agency records the complaint on a complaint form and forwards it to the appropriate regulatory agency within twenty-four (24) hours after receipt. A copy of the substantiated complaint and its subsequent resolution is available to the public upon request through the regulatory agency. The client is encouraged to make the report themselves. The regulator agencies make substantiated complaint information available upon request through the phone, in person or through their website. All clients are counseled to call child care licensing or check the licensing website (Washoe County clients only) prior to making a child care selection.

2.7. Payment Rates for Child Care Services

The statute at 658E(c)(4) and the regulations at §98.43(b)(1) require the Lead Agency to establish adequate payment rates for child care services that ensure eligible children equal access to comparable care.

2.7.1 Attach a copy of your payment rates as Attachment 2.7.1.

Will the attached payment rates be used in all parts of the State/Territory?

☒ Yes. Effective Date: 11/01/2004
Child Care and Development Fund (CCDF) Plan

☐ No. If no, attach other payment rates and their effective date(s) as Attachment 2.7.1a, 2.7.1b, etc.

2.7.2. Which strategies, if any, will the Lead Agency use to ensure the timeliness of payments?

☒ Policy on length of time for making payments. Describe length of time

For time sheets submitted timely, payments to the provider must be sent within thirty (30) business days from the receipt of the timesheet. If the attendance record is not received timely, payment must occur at the next available reimbursement period.

☐ Track and monitor the payment process

☐ Other. Describe ______

☐ None

2.7.3. Market Rate Survey

Lead Agencies must complete a local Market Rate Survey (MRS) no earlier than two years prior to the effective date of the Plan (no earlier than October 1, 2011). The MRS must be completed prior to the submission of the CCDF Plan (see Program Instruction CCDF-ACF-PI-2009-02 http://www.acf.hhs.gov/programs/occ/resource/pi-2009-02 for more information on the MRS deadline).

a) Provide the month and year when the local Market Rate Survey(s) was completed (§98.43(b)(2)): 11/01/2011.

b) Provide a summary of the results of the survey. The summary should include a description of the sample population, data source, the type of methodology used, response rate, description of analyses, and key findings.

The market rate survey was completed by The Children’s Cabinet CCR&R staff.

Sample Population
All active licensed providers; current licensing lists are obtained from the State of Nevada Child Care Licensing Bureau, Washoe County Social Services, Administration for Child and Families (ACF) Region IX Tribal Child Care Technical Assistance Center (Tri-TAC).

Date Source
All data from the survey below are entered into a NACCRAware database. Data is then exported to a MySQL file. This file is then used with Crystal Reports to pull information by county, provider type and age. Methodology - Use Research Base for Conducting the Market Rate Survey
The following technical report is used as guidance in designing and implementing our market rate research to ensure that the price findings are accurate.

surveys. Corvallis, OR: Oregon State University Family Policy Program, Oregon Child Care Research Partnership.

Nevada Child Care System (NCCS, Subsidy Database) and NACCRRAware (Resource & Referral Database) are used to guide the survey instrument design to capture all characteristics of the child care program with an extra focus on formatting the survey so providers’ rates can be captured for all age levels and schedules offered.

A cover letter is sent with the survey explaining that the information will be used to:

1. Update provider information in our referral database to ensure that child care referrals are accurate.
2. Gather current rates by provider type, geographical area, and care level to assist the Nevada Division of Welfare and Supportive Services (DWSS) in reviewing the current State Subsidy Reimbursement Rate.
3. Provide the source data for the Child Care Demographics and Economic Development reports.

A multi-contact method is utilized to increase the response rate of our survey:

1. Initial survey is mailed with postage-paid, self-addressed, return envelope.
2. One week after the initial survey is mailed, a follow-up postcard is sent to thank the provider if they have already responded to the survey or encourage them to complete the survey.
3. Second survey with return envelope is mailed to each facility that has not responded.
4. Two weeks later, telephone calls are made to encourage providers to return the survey and an attempt to gather at least the market rates is made over the phone.
5. A fourth mailing using Priority Mail might be considered if the response rate is below 65%.

Response Rate
A 64% response rate of the total population or higher ensures that non-responses are randomly distributed.

Data is collected within a 3 month timeframe to ensure information is captured in one period of time.

Description of Analyses
The average, range and 75th percentile price were identified by geographical area, type of care, and age level.
2.7.4. Describe the payment rate ceilings in relation to the current MRS using the tables below.

Because of the flexibility that Lead Agencies have in setting payment rate ceilings, the following tables have been developed to simplify Lead Agency reporting on how their payment rate ceilings compare to their most recent MRS. These tables are not meant to collect comprehensive payment rate ceilings within a State/Territory and ACF recognizes that Lead Agencies are not required to set their payment rate ceilings at the 75th percentile. These tables allow Lead Agencies to use a common metric – the 75th percentile – as a reference point against which the Lead Agency can report their percentiles for three selected age groups in two geographic areas for licensed child care centers and licensed family child care homes.

In table 2.7.4a and 2.7.4b, highest rate area refers to the State or Territory’s area or geographic region with the highest maximum payment rate ceiling for child care centers (2.7.4a) and the lowest maximum payment rate ceiling for child care centers (2.7.4b). Identify the highest rate area in the box provided. In column (a), provide the full-time monthly rate at the 75th percentile from the most recent MRS, even if the most recent MRS is not used to set rates. In column (b), provide the maximum monthly payment rate ceiling from your CCDF payment rate table. Complete column (c) ONLY IF the percentile for the monthly maximum payment rate ceiling is lower than the 75th percentile of the most recent MRS.

**Note** - Report the “base” maximum reimbursement rate ceiling, not including any rate add-ons or tiered reimbursements. For example, if maximum reimbursement rate ceilings are tiered based on level of quality (e.g., accreditation, or rating within a quality rating system such as gold, silver and bronze), report the rates for the lowest level in the tables below (e.g., bronze), only if there is no lower “base” rate paid for child care services by providers not participating in the quality rating system.
If your State/Territory has hourly, daily and/or weekly maximum payment rate ceiling, Lead Agencies can use the following assumptions to calculate monthly maximum payment rate ceiling for column (b) – 9 hours a day, 5 days per week, 4.33 weeks per month.

OCC recognizes that States and Territories use a wide variety of age ranges and categories in setting payment rate ceilings. In these charts, report rates for the following ages only – 11 months, 59 months, and 84 months of age – regardless of what that age category may be called in your State/Territory.

2.7.5. How are payment rate ceilings for license-exempt providers set?

   a) Describe how license-exempt center payment rates are set: N/A

   b) Describe how license-exempt family child care home payment rates are set: N/A

   c) Describe how license-exempt group family child care home payment rates are set: N/A

   d) Describe how in-home care payment rates are set: The in-home care payment rate is set at 75% of the Licensed Family Care Rate for the geographical area/age level.

2.7.6 Will the Lead Agency provide any type of tiered reimbursement or differential rates on top of its base reimbursement rates for providing care for children receiving CCDF subsidies?

Check which types of tiered reimbursement, if any, the Lead Agency has chosen to implement. In the description of any tiered rates or add-ons, indicate the process and basis used for determining the tiered rates and amount and also indicate if the rates were set based on the MRS or another process.

- Differential rate for nontraditional hours. Describe ______
- Differential rate for children with special needs as defined by the State/Territory. Describe ______
- Differential rate for infants and toddlers. Describe ______
- Differential rate for school-age programs. Describe ______
- Differential rate for higher quality as defined by the State/Territory. Describe: Licensed child care group home providers or family home providers who achieve national accreditation receive a 15% increase on top of the base reimbursement rate. Licensed centers that have received a QRIS rating of 3 stars or higher receive an increase on top of the base reimbursement rate as follows: 3 star – 6% 4 star – 9% 5 star – 12%.
Other differential rate. Describe ______

None.

Reminder - CCDF regulations require the Lead Agency to certify that the payment rates for the provision of child care services are sufficient to ensure equal access for eligible families to child care services comparable to those provided to families not eligible to receive CCDF assistance. In the next three questions, Lead Agencies are asked to describe how their payment policies reflect the affordable copayments for families’ provision of equal access (i.e., minimizing additional fees to parents), how payment practices are implemented consistent with the general child care market to be fair to providers (see Information Memorandum on Continuity of Care for examples http://www.acf.hhs.gov/programs/occ/resource/im2011-06 ), and the summary of facts describing how payment rates are adequate to ensure equal access to the full range of providers.

2.7.7. What policies does the Lead Agency have regarding any additional fees that providers may charge CCDF parents? The Lead Agency...

☒ Allows providers to charge the difference between the maximum reimbursement rate and their private pay rate
☒ Pays for provider fees (e.g., registration, meals, and supplies). Describe: A maximum of $40 per calendar year is paid for registration/annual fees per child.
☐ Policies vary across region, counties and or geographic areas. Describe

☐ Other. Describe ______

2.7.8 What specific policies and practices does the Lead Agency have regarding the following:

a) Number of absent days allowed. Describe 15 discretionary days per year per child

b) Paying based on enrollment. Describe N/A

c) Paying on the same schedule that providers charge private pay families (e.g., hourly, weekly, monthly) Describe N/A

d) Using electronic tools (automated billing, direct deposit, EBT cards, etc.) to make provider payments. Describe: Providers are given the option for direct deposit or EFT payments.

2.7.9. Describe how payment rates are adequate to ensure equal access to the full range of providers based on the Market Rate Survey.

CCDF regulations require the Lead Agency to certify that the payment rates for the provision of child care services are sufficient to ensure equal access for eligible families to child care services comparable to those provided to families not eligible to
receive CCDF assistance. To demonstrate equal access, the Lead Agency shall provide at a minimum a summary of facts describing: (§98.43(a))

a) How a choice of the full range of providers, e.g., child care centers, family child care homes, group child care homes and in-home care, is made available (§98.43(a)(1)) DWSS has contracts with The Children’s Cabinet and the Las Vegas Urban League to operate a Resource & Referral program for designated areas of the state. The CCR&R contractors have all licensed registered child care providers in their computer systems. Therefore parents have a complete choice of who they want to care for their child(ren).

b) How payment rates are adequate based on the most recent local MRS (§98.43(a)(2)) Our most recent MRS was November 2011. However, we have not been able to raise our rates because of budget constraints. We do contract with recreational programs and Head Start agencies to fund slot programs which assist low income families in finding needed affordable care.

c) How family co-payments based on a sliding fee scale are affordable (§98.43(a)(3)) We believe the co-payments are affordable because the vast majority of parents on our child care program are paying 10% or less of a co-payment.

d) Any additional facts the Lead Agency considered to determine that its payment rates ensure equal access, including how the quality of child care providers is taken into account when setting rates and whether any other methodologies (e.g., cost estimation models) are used in setting payment rates ______

2.8 Goals for the next Biennium
In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium and are encouraged to identify no more than five priority goals total. ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). Lead Agencies will report progress and updates on these goals in the annual Quality Performance Report (Appendix 1), including any barriers encountered.

What are the Lead Agency’s goals for the administration of the CCDF subsidy program in the coming Biennium? For example, what progress does the State/Territory expect to make on continuing improved services to parents and providers, continuity of care for children, improving outreach to parents and providers, building or expanding information technology systems, or revising rate setting policies or practices).

Note – When identifying your goals below, Lead Agencies are encouraged to begin with an action verb reflecting the desired result over the two year period (e.g.,
Goal 1 – Review state policy which inhibits parent’s ability to remain eligible for subsidized child care assistance.

Review best practices of other states on improved services, continuity of care for children and outreach to parents and providers;
Review federal guidelines and policies on continuity of care and outreach to parents and providers.
Evaluate the child care needs of parents in Nevada and implement program changes that streamline eligibility and reporting requirements.

Goal 2 – Work to implement background checks for in-home subsidy providers who are not required to be licensed.

Review best practices of other states; and
Work with Nevada licensing agency to create policy and implement the background checks.
3.1. Activities to Ensure the Health and Safety of Children in Child Care (Component #1)

This section is intended to collect information on how Lead Agencies meet the statutory and regulatory provisions related to licensing and health and safety requirements. The CCDBG statute and the CCDF regulations address health and safety primarily in two ways.

First, Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency (§98.40(a)(1)). These licensing requirements need not be applied to specific types of providers of child care services (658(E)(c)(2)(E)(i). Lead Agencies must describe those licensing requirements and how they are effectively enforced. Questions related to licensing requirements are in sections 3.1.1 and 3.1.2. Second, Each Lead Agency shall certify that there are in effect, within the State or local law, requirements designed to protect the health and safety of children that are applicable to child care providers of services for which assistance is provided under CCDF. Questions related to CCDF Health and Safety requirements are in sections 3.1.3 and 3.1.4.

3.1.1. Compliance with Applicable State/Territory and Local Regulatory Requirements on Licensing

Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency (§98.40(a)(1)). These licensing requirements need not be applied to specific types of providers of child care services (658(E)(c)(2)(E)(i). Lead Agencies must describe those licensing requirements and how they are effectively enforced.

Definition: Licensing requirements are defined as regulatory requirements, including registration or certification requirements established under State, local, or tribal law, necessary for a provider to legally operate and provide child care services in a State or locality (§98.2). This does not include registration or certification requirements solely for child care providers to be eligible to participate in the CCDF program. Those requirements will be addressed in 3.1.2.

The relationship between licensing requirements and health and safety requirements varies by State/Territory depending on how comprehensive the licensing system is. In some States and Territories, licensing may apply to the majority of CCDF-eligible providers and the licensing standards cover the three CCDF health and safety requirements so the State/Territory has few, if any, providers for whom they need to establish additional CCDF health and safety requirements. In other cases, States and Territories have elected to exempt large numbers of providers from licensing which
Child Care and Development Fund (CCDF) Plan

means that those exempted providers who care for children receiving assistance from CCDF will have to meet to the CCDF health and safety requirements through an alternative process outside of licensing as defined by the State/Territory. The State/Territory may also elect to impose more stringent standards and licensing or regulatory requirements on child care providers of services for which assistance is provided under the CCDF than the standards or requirements imposed on other child care providers. (§98.40(b)(1)) (658E(c)(2)(F), §98.41).

a) Is the Lead Agency responsible for child care licensing? (§98.11(a))

☐ Yes.
☒ No. Please identify the State or local (if applicable) entity/agency responsible for licensing Department of Health and Human Services, Health Division, Health Care Quality and Compliance

b) Provide a brief overview of the relationship between the licensing requirements and CCDF health and safety requirements in your State/Territory.

State licensing requirements serve as the health and safety requirements for centers, group homes, and family home providers. There are no additional CCDF health and safety requirements in Nevada.

c) Do the State/Territory’s licensing requirements serve as the CCDF health and safety requirements?

d) CCDF identifies and defines four categories of care: child care centers, family child care homes, group child care homes and in-home child care providers (§98.2). The CCDF definition for each category is listed below. For each CCDF category of care, please identify which types of providers are subject to licensing and which providers are exempt from licensing in your State/Territory in the chart below. **Note: OCC recognizes that each State/Territory identifies and defines its own categories of care. OCC does not expect States/Territories to change their definitions to fit the CCDF-defined categories of care. 3.1.3. Compliance with Applicable State/Territory and Local Regulatory Requirements on Health and Safety

Each Lead Agency shall certify that there are in effect, within the State or local law, requirements designed to protect the health and safety of children that are applicable to child care providers of services for which assistance is provided under CCDF. Such requirements shall include the prevention and control of infectious diseases.
(including immunization), building and physical premises safety, and minimum health and safety training appropriate to the provider setting. These health and safety requirements apply to all providers caring for children receiving CCDF services and which also may be covered by the licensing requirements. (658E(c)(2)(F), §98.41)

☐ Check if the Lead Agency certifies that there are in effect within the State (or other area served by the Lead Agency), under State or local law, requirements designed to protect the health and safety of children; these requirements are applicable to child care providers that provide services for which assistance is made available under the Child Care and Development Fund. (658E(c)(2)(E))

d) CCDF allows Lead Agencies to exempt relative providers (grandparents, great-grandparents, siblings if living in a separate residence, aunts, and uncles) from these health and safety requirements. What are the Lead Agency’s requirements for relative providers? (§98.41(A)(ii)(A))

- All relative providers are subject to the same health and safety requirements as described in 3.1.2a-c, as appropriate; there are no exceptions for relatives.
- Relative providers are NOT required to meet any health and safety requirements as described in 3.1.2a-c, as appropriate.
- Relative providers are subject to certain requirements. Describe the different requirements. Relatives must complete the Health & Safety Training module and a home (home where the care is provided) Health & Safety Assessment/Checklist.
e) Provide a web address for the State/Territory’s health and safety requirements, if available: ______

3.1.4 Effective enforcement of the CCDF health and safety requirements. For providers who care for children receiving CCDF assistance and who are NOT subject to the enforcement procedures described in 3.1.2 for licensed providers, please describe how the Lead Agency enforces the CCDF health and safety enforcement requirements. ______

a) Describe whether and how the Lead Agency uses on-site visits (announced and unannounced): **Onsite visits are required for all out-of-home non-relative providers within 45 days of registration and every 6 months thereafter.** If the scheduled visit is inadequate, a follow-up visit is conducted. If the follow-up visit is inadequate, the provider is terminated from the program. The Children’s Cabinet reserves the right to make unannounced visits and does so during follow-up visits (based on circumstances of scheduled visit) or upon receiving information that would warrant an unannounced visit (e.g., report of too many children in the home, uncleanly or hazardous environment, registered provider is not the provider caring for the children).

b) Describe whether the Lead Agency uses background checks: **Not used**

c) Does the Lead Agency permit providers to self-certify compliance with applicable health and safety standards?

☑ Yes. If yes, what documentation, if any, is required? Describe: **A health and safety training module must be read and a competency check report and module evaluation form must be returned. Additionally, all FFN providers must evaluate the child care environment by using a Health & Safety checklist. The checklist is a requirement and must be returned.**

☐ No

d) Describe whether the Lead Agency uses any other enforcement policies and practices for the health and safety requirements: **In addition to the health & safety training module and the home health & safety checklist, all out-of-home non-relative providers must have a health and safety visit within 45 days of registration and every 6 months thereafter.**

☑ Check if the Lead Agency certifies that procedures are in effect to ensure that child care providers of services for which assistance is provided under the Child Care and Development Fund comply with all applicable State or local health and safety requirements. (658E(c)(2)(G))
3.1.5. **Does the State/Territory encourage or require child care programs to conduct developmental screening and referral for children participating in child care programs?**

Lead Agencies are not required to conduct developmental screenings of children, but are encouraged to work with child care providers to promote screening in the areas of physical health (including vision and hearing), mental health, oral health, and developmental disabilities.

- [ ] Yes. Describe
- [x] No

a) If yes, are training, resources and supports offered to programs to assist them in ensuring that children receive appropriate developmental screenings?

- [ ] Yes. Describe
- [ ] No
- [ ] Other. Describe

b) If yes, are resources and supports provided to programs to help them understand how families are referred to indicated services and how to work with the health, mental health, and developmental disabilities agencies to support children when follow-up to screening is needed?

- [ ] Yes. Describe
- [ ] No
- [ ] Other. Describe

c) **Does the State/Territory use developmental screening and referral tools?**

- [ ] Yes. If Yes, provide the name of the tool(s)
- [ ] No
- [ ] Other. Describe

3.1.6 **Data & Performance Measures on Licensing and Health and Safety Compliance**

What data elements, if any, does the State/Territory currently have access to related to licensing compliance? What, if any, performance measures does the Lead Agency use for ensuring health and safety? The purpose of these questions is for Lead Agencies to provide a description of their capacity to provide information, not to require Lead Agencies to collect or report this information. For any data elements checked in (a) below, Lead Agencies may provide an optional description about the data they have access to (e.g., the Lead Agency may have data for only licensed programs, only programs caring for children receiving CCDF subsidies, only providers participating in quality improvement systems, or only for certain age groups (e.g., infants and toddlers or school-age children).

a) **Data on licensing and health and safety.** Indicate if the Lead Agency
or another agency has access to data on:

- Number of licensed programs. Describe (optional)
- Numbers of programs operating that are legally exempt from licensing. Describe (optional)
- Number of programs whose licenses were suspended or revoked due to non-compliance. Describe (optional)
- Number of injuries in child care as defined by the State/Territory. Describe (optional)
- Number of fatalities in child care as defined by the State/Territory. Describe (optional)
- Number of monitoring visits received by programs. Describe (optional)
- Caseload of licensing staff. Describe (optional)
- Number of programs revoked from CCDF due to non-compliance with health and safety requirements. Describe (optional)
- Other. Describe
- None

b) Performance measurement. What, if any, performance measures does the State/Territory use in its licensing system to monitor compliance with CCDF health and safety requirements? None at this time

c) Evaluation. What, if any, are the State/Territory’s plans for evaluation related to licensing and health and safety? Evaluation can include efforts related to monitoring implementation of an initiative, validation of standards or assessment tools, or looking at outcomes in programs or the system and may be ongoing or conducted periodically. None at this time

3.1.7 Goals for the next Biennium –
In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium and are encouraged to identify no more than five priority goals total. ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). Lead Agencies are not required to establish a goal for each sub-section of 3.1. Lead Agencies will report progress and updates on these goals in the annual Quality Performance Report (Appendix 1), including any barriers encountered.

What are the Lead Agency’s goals for the licensing and health and safety system in the coming biennium? What progress does the State/Territory expect to make on core areas (e.g. licensing standards, monitoring visits or other effective enforcement, improved technical assistance, or fewer serious non-compliances?)

Note – When identifying your goals below, Lead Agencies are encouraged to begin with an action verb reflecting the desired result over the two year period (e.g.,
Child Care and Development Fund (CCDF) Plan

**New!**

CCDF has a number of performance measures that are used to track progress for key aspects of the program at the national level. These performance measures are included in budget materials submitted to Congress and other documents. Please follow this link [http://www.acf.hhs.gov/programs/occ/resource/government-performance-and-results-act-gpra-measures](http://www.acf.hhs.gov/programs/occ/resource/government-performance-and-results-act-gpra-measures) to see the CCDF performance measures. A number of these performance measures rely on information reported in the State and Territorial Plans as a data source. We have added a ruler icon in Section 3.2 through 3.4 in order to identify the specific questions used in the performance measures. When answering these questions, Lead Agencies should ensure that their answers are accurate and complete in order to promote the usefulness and integrity of the performance measures.

### 3.2 Establishing Voluntary Early Learning Guidelines (Component #2)

For purposes of this section, voluntary early learning guidelines (also referred to as early learning and development standards) include the expectations for what children should know (content) and be able to do (skills) at different levels of development. These standards provide guidelines, articulate developmental milestones, and set expectations for the healthy growth and development of young children. The term *early learning guidelines* (ELGs) refers to age-appropriate developmental learning guidelines for infants and toddlers and school-age children. These early learning guidelines are voluntary because States/Territories are not required to develop such guidelines or implement them in a specified manner.

#### 3.2.1 Has the State/Territory developed voluntary early learning guidelines for children? Check any early learning guidelines the State/Territory has developed.

- [x] Birth-to-three
- [ ] Three-to-five
- [x] Five years and older
- [ ] None. **Skip to 3.2.6.**

If yes, insert web addresses, where possible:

3.2.2 Do the early learning guidelines cover a range of domains across physical, cognitive, and social and emotional development?
Check all that apply for each age group as applicable in the chart below. Because States vary in their domain names and which domains to include, we have used the domains identified in the Head Start Child Development and Early Learning Framework for reference purposes.

3.2.7 Data & Performance Measures on Voluntary Early Learning Guidelines –
What data elements, if any, does the State/Territory have access to on the dissemination of, implementation of, or children’s attainment of the early learning guidelines? What, if any, performance measures does the State/Territory use for dissemination and implementation of the early learning guidelines? The purpose of these questions is for Lead Agencies to provide a description of their capacity to provide information, not to require Lead Agencies to collect or report this information. For any data elements checked in (a) below, Lead Agencies may provide an optional description about the data they have access to (e.g., the Lead Agency may have data for only licensed programs, only programs caring for children receiving CCDF subsidies, only providers participating in quality improvement systems, or only for certain age groups (e.g., infants and toddlers or school-age children).

a) Data on voluntary early learning guidelines. Indicate if the Lead Agency or another agency has access to data on:

- ☑ Number/percentage of child care providers trained on ELG’s for preschool aged children. Describe (optional)
- ☑ Number/percentage of child care providers trained on ELG’s for infants and toddlers. Describe (optional)
- □ Number of programs using ELG’s in planning for their work. Describe (optional)
- ☑ Number of parents trained on or served in family support programs that use ELG’s. Describe (optional)
- □ Other. Describe
- □ None

b) Performance measurement. What, if any, are the Lead Agency’s performance measures related to dissemination and implementation of the early learning guidelines? Number of visits/hours of technical assistance provided to child care providers, results of training satisfaction survey, and number of materials distributed.

c) Evaluation. What are the State/Territory’s plans, if any, for evaluation related to early learning guidelines and the progress of children in child care? Evaluation can include efforts related to monitoring implementation
of an initiative validation of standards or program assessment tools, or looking at outcomes in programs or the system and may be ongoing or conducted periodically. **None at this time**

### 3.2.8 Goals for the next Biennium –
In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium. Lead Agencies are encouraged to include measurable and achievable goals. Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). What are the Lead Agency’s goals for using voluntary early learning guidelines in the coming biennium? What progress does the Lead Agency expect to make related to early learning guidelines? **Distribute newly published 0-3 Guidelines training and provide training and materials.**

### 3.3 Creating Pathways to Excellence for Child Care Programs through Program Quality Improvement Activities (Component #3)

Many States have chosen to use targeted quality funds and other resources to develop a systematic framework for evaluating, improving, and communicating the level of quality in early childhood programs (i.e. QRIS). States and Territories will provide a self-assessment on current program quality improvement activities by responding to questions in this section and then describe their goals for the upcoming Biennium.

For purposes of this section, States and Territories will respond according to a Quality Rating and Improvement System (QRIS) framework. QRIS refers to a systematic framework for evaluating, improving and communicating the level of quality in early childhood programs and contains five key elements:

1. Program standards
2. Supports to programs to improve quality
3. Financial incentives and supports
4. Quality assurance and monitoring
5. Outreach and consumer education

While not all States and Territories have developed or implemented a formal QRIS, all are pursuing quality improvement strategies that can be described within this framework (based upon previous CCDF Plans). Using this framework to organize this section allows States/Territories to report on their quality improvement activities systematically whether they have a QRIS or not. Over time, States and Territories are encouraged to work on linking their quality improvement initiatives and strategies across all of these elements, culminating in a comprehensive Quality Rating and Improvement System with adequate support for providers to attain higher levels of quality and transparency for parents and the community regarding the quality of child care.
Child Care and Development Fund (CCDF) Plan

a) Describe which entities are involved in planning and administering the program quality improvement activities in 3.3, including State/Territory entities and local or community level entities. Division of Welfare and Supportive Services, Office of Early Care and Education; Washoe County School District; TEACH Early Childhood Nevada; Children’s Cabinet CCR&R; Health Division; and Division of Child and Family Services and UNR Child and Family Research Center.

3.3.1 Element 1 – Program Standards

Definition – For purposes of this section, program standards refers to the expectations for quality, or quality indicators, which identify different levels of and pathways to improved quality. Minimum licensing standards and health and safety requirements provided in section 3.1 are also program standards but in this section, we focus on those standards that build upon and go beyond those minimum requirements.

a) Does your State/Territory have quality improvement standards that include indicators covering the following areas beyond what is required for licensing? Check any indicators, if any, that your State/Territory has chosen to establish.

- Ratios and group size
- Health, nutrition and safety
- Learning environment and curriculum
- Staff/Provider qualifications and professional development
- Teacher/providers-child relationships
- Teacher/provider instructional practices
- Family partnerships and family strengthening
- Community relationships
- Administration and management
- Developmental screenings
- Child assessment for the purposes of individualizing instruction and/or targeting program improvement
- Cultural competence
- Other. Describe
- None. If checked, skip to 3.3.2.

b) Does your State/Territory have quality improvement standards with provisions about the care of any of these groups of children? Check any provisions your State/Territory has chosen to establish.

- Children with special needs as defined by your State/Territory
- Infants and toddlers
- School-age children
- Children who are dual language learners
- None

c) How do your State/Territory’s quality standards link to State/Territory licensing requirements? Check any links between your State/Territory’s quality standards and
Child Care and Development Fund (CCDF) Plan

licensing requirements.

☐ Licensing is a pre-requisite for participation
☒ Licensing is the first tier of the quality levels
☐ State/Territory license is a “rated” license.
☐ Other. Describe ________
☐ Not linked.

d) Do your State/Territory’s quality improvement standards align with or have reciprocity with any of the following standards? Check any alignment, if any, between your State/Territory’s quality standards and other standards.

☐ Programs that meet State/Territory pre-k standards are able to meet all or part of the quality improvement standards (e.g., content of the standards is the same, or there is a reciprocal agreement between pre-k and the quality improvement system)
☒ Programs that meet Federal Head Start Performance Standards are able to meet all or part of the quality improvement standards (e.g., content of the standards is the same, or there is a reciprocal agreement between Head Start and the quality improvement system)
☒ Programs that meet national accreditation standards are able to meet all or part of the quality improvement standards (e.g., content of the standards is the same, or an alternative pathway to meeting the standards)
☐ Other. Describe ________
☐ None

3.3.2 Element 2 –Supports to Programs to Improve Quality

Definition – For purposes of this section, supports to programs to improve quality refers to such activities as technical assistance and consultation services for programs to assist in meeting child care quality improvement standards.

a) Check which types of and for what purposes the State/Territory uses supports to child care programs, if any, in the following chart. If none, skip to 3.3.3.

Lead Agencies are required to request approval from Administration for Children and Families (ACF) whenever a “substantial” change in the Lead Agency’s approved CCDF plan occurs. Please refer to the ACF Program Instruction regarding CCDF Plan amendments for more information http://www.acf.hhs.gov/programs/occ/resource/pi-2009-01

Plan amendments must be submitted to ACF within 60 days of the effective date of the change. Under the regulation, the plan amendment must be approved no later than the 90th day following the date on which the amendment is received by ACF unless the Lead Agency and ACF mutually agree in writing to extend the period. (§98.18 (b)).

ACF encourages Lead Agencies to contact the Child Care program staff in the appropriate ACF Regional Office to discuss any proposed amendment as early as possible.

Instructions for Submitting Amendments:

Complete the first 3 columns of the Amendment Log and send a copy of the Log (showing the latest amendment sent to ACF) and the amended section(s) to the ACF Regional Office contact. Lead Agency also should indicate the Effective Date of the amended section in the footer at the bottom of the amended page(s). A copy of the Log, showing the latest amendment pending in ACF, is retained as part of the Lead Agency's Plan.

ACF will complete column 4 and returns a photocopy of the Log to the grantee following its review and approval of the amendment. The Lead Agency replaces this page in the Plan with the copy of the Log received from ACF showing the approval date.

Note: This process depends on repeated subsequent use of the same Log page over the life of the Plan. At any time the Log should reflect all amendments, both approved and pending in ACF. The Lead Agency is advised to retain "old" plan pages that are superseded by amendments in a separate appendix to its Plan. This is especially important as auditors will review CCDF Plans and examine effective date of changes.

APPENDIX 1
QUALITY PERFORMANCE REPORT

This annual report will be submitted to ACF no later than December 31, 2014 and will reflect the period October 1, 2013 through September 30, 2014. Lead Agencies will leave this report blank when the Plan is initially submitted.

In this report, Lead Agencies are asked about the State/Territory’s progress in meetings its goals as reported in the FY 2014-2015 CCDF Plan, and provide available data on the results of those activities. At a minimum, Lead Agencies are expected to respond to the first question in each section of the Quality Performance Report (QPR) which asks for their progress toward meeting their goal(s) articulated in Part 2 and Part 3 of the CCDF Plan for this Biennium.

Because of the flexibility in administering the CCDF program, it is expected that Lead Agencies may not have information and data available to respond to all questions. A Describe box is provided for each question for Lead Agencies to provide descriptive context for data reported and narrative updates in each data section, including any plans for reporting data in the future, if actual data is not currently available or if specific questions are not applicable. Lead Agencies may use data collected by other agencies and entities (e.g., CCR&R agencies or other contractors) as appropriate. The term Lead Agency is used in questions when the data relate to a CCDF-specific activity, otherwise the term State/Territory is used when another entity may be responsible or involved with an activity (e.g., licensing).

The purpose of this annual report is to capture State/Territory progress on improving the quality of child care. Specifically, this report will:

- Provide a national assessment of State’s and Territory’s progress toward improving the quality of child care, including a focus on program quality and child care workforce quality;
- Track State’s and Territory’s annual progress toward meeting high quality indicators and benchmarks, including those that they set for themselves in their CCDF Plans and those that are of interest to the U.S. Department of Health and Human Services in measuring CCDF program performance;
- Assist national and State/Territory technical assistance efforts to help States/Territories make strategic use of quality funds; and
- Assist with program accountability

This report collects progress on the five goals identified in Part 2 and Part 3 of the Child Care and Development Fund (CCDF) Plan for FY2014-2015 along with key data in relation to the four components of child care quality used as a quality framework in Part 3 of the Child Care and Development Fund Plan for FY 2014-2015:

1. Ensuring health and safety of children through licensing and health and safety
standards
2. Establishing early learning guidelines
3. Creating pathways to excellence for child care programs through program quality improvement activities
4. Creating pathways to an effective, well-supported child care workforce through professional development systems and workforce initiatives.

Ensuring the Health and Safety of Children (Component #1)

In this section, Lead Agencies provide information on the minimum health and safety standards and activities in effect over the past year as of September 30, 2014.

A1.1 Progress on Overall Goals

Based on the goals described in the Lead Agency’s CCDF Plan at Section 3.1.7, please report your progress using the chart below.

You may include any significant areas of progress that were not anticipated in the Plan, as well. For each goal listed, briefly describe the improvement with specific examples or numeric targets where possible (e.g., revised licensing regulation to include elements related to SIDS prevention, lowered caseload of licensing staff to 1:50, or increased monitoring visits to twice annually for child care centers). If applicable, describe any barriers to implementing your planned goals.

A1.2 Key Data

OCC is collecting this information as one part of our overall effort to better understand States/Territories’ activities to improve the quality of child care. OCC recognizes that the data requested in this report will only provide part of that picture because there are many factors which affect the data being collected here and that some data requested may be collected by another agency or entity other than the Lead Agency. Each State/Territory’s policy context and priorities and standards will play a role in the way that quality improvement activities are developed and implemented. For example, the number of programs with licensing violations will be
affected by how stringent the licensing standards are. States with more stringent standards may be more likely to report more violations than those with less stringent licensing standards. OCC intends to work with the States/Territories to gather any additional contextual information necessary in order to fully understand the context of these data for any reporting activities involving this information.

A1.2.2 Number and Frequency of Monitoring Visits

For licensed programs, a monitoring visit is an onsite visit by department personnel to a licensed child care program with the goal of ensuring compliance with licensing regulations. This may include initial licensing determination visits, licensing renewal visits, periodic announced or unannounced visits, and visits made after a complaint is lodged. For legally exempt providers, a monitoring visit is an onsite visit to a child care program with the goal of ensuring compliance with health and safety standards as defined by CCDF and required for receipt of CCDF funds. Use the Describe box to provide your State/Territory monitoring visit requirement.
