AGENDA

***I. Child Care and Development Program**

State regulation requires agencies to submit proposed program changes affecting the public for review and approval. The Division of Welfare and Supportive Services, Child Care and Development Program proposes to submit a supplemental work program because the program anticipates exhausting the current budget authority prior to the end of the fiscal year. There are no changes to the program and there is not an increase in funding. This increase in budget authority ensures the program has authority to expend available funds to continue current operations.
