TANF BUDGETING STEPS

Step		
1. Determine gross earned and unearned income, using Tables II (Gross Earned Income) and III (Unearned Income) on the budget form.		
2. On Table IV (130% of Poverty Eligibility Determination on Budget Form), compute the Total Income. Compare the total income to the 130% of the Federal Poverty Level for the appropriate family size on Table I (need Standards/Poverty Levels).	If the Total Income is greater than 130% of poverty.	Case is ineligible for cash benefits. The budget ends here.
	If the Total Income is less than the 130% of poverty.	Go to Step 3.
3. Using Table V (Initial Eligibility Determination), determine total net income by subtracting 20% gross earnings or \$90 work expense (whichever is greater). Subtract child care. Add total Unearned Income from Table III (Unearned Income). Note: This step determines eligibility for earned income disregards.	Compare to 100 % Need Standard for family size for application month.	
	If...	Then...
	The net income is more than the 100% need standard.	Case is ineligible and the TANF budget ends here.
The net income is less than the 100% need standard.	The individual is entitled to the disregard (if not previously exhausted) on the first cash month . (If the disregards have been exhausted, apply the standard work deduction). Go to Step 4.	
4. Complete Table VI to determine Total Net Income after appropriate disregards or work expense is allowed.		
5. Complete table VII, using Total Net Income from Table VI to determine TANF eligibility and amount of cash benefit. If eligible, TANF earned income disregard count begins or continues with first cash month, as appropriate.	The budget ends here.
