# **INDIVIDUAL AND FAMILY GRANT PROGRAM**

## **100 ADMINISTRATIVE POLICIES AND PROCEDURES**

### **101 GENERAL INFORMATION**

This chapter provides policies and procedures used in determining the need for and administration of the Individual and Family Grant (IFG) Program.

Following an emergency declaration by the Governor and a major disaster declaration by the President, state and federal disaster assistance programs are made available to the state and local governments and disaster victims suffering loss or damage in the designated disaster area. Subsequent to approval of a request to the Federal Emergency Management Agency (FEMA), the Governor makes the Individual and Family Grant (IFG) Program available to those disaster victims whose necessary expenses or serious needs cannot be met by governmental programs or from other means. The IFG Program is administered by the state with 75 percent of the grant funds to individuals and families provided by the federal government, and 25 percent of the funds for such grants provided by the state. Five percent of the total federal grant can be used by the state for program administration. The maximum grant to an individual or family in any one major disaster is \$12,900.

**105 ELIGIBILITY**

**A. GENERAL**

- 1. To qualify for an IFG, an individual or family representative must certify:
  - a. Application has been made to other available governmental programs for assistance to meet a necessary expense or serious need and were determined ineligible for such assistance; or demonstrate the assistance received has not satisfied the total necessary expense or serious need;
  - b. Neither the applicant or any member of the family has previously received or refused assistance from any other source to meet the cost of the necessary expense or serious need;
  - c. The individual or family shall refund to the state that part of the grant for which financial assistance from other sources has been received, or which is not spent.

2. Individuals or families who incurred a necessary expense or serious need in the major disaster area may be eligible for assistance without regard to their residency in the major disaster area or within the state in which the major disaster has been declared.
3. Individuals or families eligible for assistance for the IFG program must obtain flood insurance as required by PL 93-234 (Flood Disaster Protection Act of 1973).
4. IFG applications must be filed within 60 days following the date on which the major disaster was declared, except as noted in this manual section.
5. Farmers, ranchers and persons engaged in agriculture qualified to apply for Farmers Home Administration (FmHA) assistance must submit proof FmHA assistance was denied before they may be considered eligible for an IFG grant. If applicants have been denied a FmHA loan assistance because, in FmHA's determination, they are able to obtain necessary credit from other sources, they are ineligible for grant assistance provided by the FmHA's Emergency Loan Program.

## **B. ELIGIBLE CATEGORIES**

Assistance may be made available to meet necessary expenses or serious needs in the following categories:

1. Medical or Dental
2. Housing

For private owner-occupied primary residences (including mobile homes), grants may be authorized to:

- a. Repair, replace, rebuild.
- b. Provide access.
- c. Clean or make sanitary.
- d. Remove debris from the residence.

Debris removal is limited to the minimum required to remove health hazards or protect against additional damage to the residence.

3. Personal Property

- a. Clothing.
- b. Household items, furnishings or appliances.
- c. Tools, specialized or protective clothing, or equipment essential to or required by an employer as a condition of employment.
- d. Repair, clean or sanitize eligible personal property items.
- e. Moving and storage to prevent or reduce damage.

4. Transportation

- a. Grants may be authorized for transportation by public conveyance provided the requirement for transportation was a direct result of the disaster.
- b. Grants may be authorized to repair, replace or provide private transportation if the loss or requirement for transportation was a direct result of the disaster, and transportation by public conveyance is inadequate or unavailable.

5. Funeral Expenses

Grants for funeral expenses are based on expenditures for burial or cremation and related costs.

6. Flood Insurance

If damage was caused due to flooding, the grant will include a one-year flood insurance premium cost which the grantee must purchase and provide proof of the purchase within thirty days of receipt of the grant; however, the total grant may not exceed \$12,900.

In all cases, disaster victims who have insurance to cover the losses incurred during the disaster for medical, dental or funeral expenses will not have an IFG application accepted during the registration process if they answered yes to question A-16 on the registration form. The victim will be informed to contact a toll-free information number if the insurance settlement does not meet their needs. The following statement will be used to inform the victim of this procedure:

“You have stated you have insurance to cover your medical/dental/funeral expenses. Therefore, an application for a grant from Nevada’s IFG program is not being accepted now. If your insurance settlement does not cover your disaster losses, please contact the agency on the toll-free information number.”

In addition, an IFG application is not taken from disaster victims needing assistance with housing repairs or personal property who answer yes to question B-2 indicating insurance coverage for disaster-related losses. The victim will be informed to contact the toll-free information number if the insurance settlement does not meet their needs. The following statement will be used to inform the victim of this procedure:

“According to the income test we have just taken, it has been determined you would not be able to repay a loan to replace or repair your disaster losses. However, your registration indicates you have insurance to cover these losses. Therefore, an application for a grant from the state’s IFG Program is not being accepted now. If your insurance settlement does not cover your disaster losses, please contact the toll-free information number.”

**C. INELIGIBLE CATEGORIES**

Assistance is not available for the following items or services:

1. Business losses including farm businesses and self-employment;
2. Improvements or additions to real or personal property, except Floodplain Management Improvement Requirements;
3. Landscaping;
4. Real or personal property used exclusively for recreation;
5. Financial obligations incurred prior to the disaster;
6. Reimbursement for labor and/or service performed by the applicant or persons living at the pre-disaster address;
7. Any necessary expense or serious need (or portion) where assistance was available from other sources but was refused by the individual or family.

**D. OTHER CATEGORIES**

The state may determine an individual or family has an expense or need not specifically identified as eligible. The state will provide a factual summary to the FEMA Regional Director requesting a determination of eligibility.

**106 ORGANIZATION AND PROCEDURES FOR PROCESSING APPLICATIONS**

State agencies charged with responsibilities under this plan ensure compliance with Section 44 CFR 205.16, Non-Discrimination in Disaster Assistance, and Section 44 CFR 205.10, Duplication of Benefits, of the FEMA regulations. The agency performs the following functions:

**A. NOTIFYING POTENTIAL APPLICANTS**

The Director shall publicize the availability of the Individual and Family Grant Program by:

1. Coordinating public information activities with the SCO and other appropriate agencies;
2. Providing news releases to local and state newspapers, radio and television stations;
3. Notifying local governments, private welfare and welfare-related agencies, civic and church groups;
4. Ensuring potential grant applicants are made aware of the closing date for filing applications by providing a minimum of three news releases to all newspapers with coverage in the disaster area;
5. Providing each applicant an Information Sheet (Exhibit 1202.4) containing general program information and specifying required documentation.

**B. ESTABLISHING APPLICATION CENTERS**

The IFG Program Manager will provide Division personnel to staff the Disaster Assistance Centers to accept grant applications. Subsequent to closing the centers, the IFG Program Manager will provide other locations to accept applications. In determining suitable locations, consideration is given to the location of disaster victims and their proximity to local state offices, and the number of disaster victims the office might be required to serve.

**C. INTERVIEWING APPLICANTS, RECEIVING GRANT APPLICATIONS**

The IFG Program Manager provides Division staff to interview applicants, receive applications and maintain case files. Applications are taken for sixty days following a major disaster declaration from any victim desiring grant assistance. The interviewer explains the scope and purpose of the program to each applicant and ensures the applicant clearly identifies the specific needs or expenses for which assistance is requested.

A casefile with all documents pertaining to the request for assistance is maintained for each applicant. Applicants who own no real estate, sustain only personal property damage and meet the employment and income criteria contained in Small Business Administration Regulations, Section 123.11, complete the Certification of Eligibility prior to applying for an IFG. The completed Certification of Eligibility is retained in the applicant's casefile and considered a denied request for loan assistance from the Small Business Administration (SBA).

**D. VERIFYING NECESSARY EXPENSES OR SERIOUS NEEDS**

The IFG Program Manager is responsible for verifying necessary expenses for which grant assistance has been requested. The Division provides the IFG Program Manager with verifiers to work under his/her supervision. The verifier is responsible for completing thorough checks on other sources of assistance (e.g., SBA, FmHA, VA, Red Cross, insurance, etc.). Field trips, including home visits, are made to verify serious needs or necessary expenses for which an IFG has been requested. The verifier categorizes the serious needs and necessary expenses into eligible categories, and attaches the necessary documentation to the verification form. The verification form is attached to the application and becomes a part of the casefile.

In those cases where verification is unavailable, the verifier so states this fact on the form. When verification is complete, the casefile is sent to the Administrative Panel.

**E. DETERMINING ELIGIBILITY**

The Administrative Panel reviews each application to determine eligibility and grant amount. All determinations are made in accordance with eligibility criteria and the Guidance and Checklist for Determining Individual and Family Grant Eligibility Categories Form (Exhibit C).

The determination of eligibility and monetary award authorized by the panel shall be documented in the Grant Award, a copy of which is a permanent part of the casefile. The complete casefile is returned to the Division for further processing.

**F. NOTIFYING APPLICANTS OF GRANT APPROVAL/DISAPPROVAL**

The IFG Program Manager notifies every applicant, in writing, of the eligibility determination made on their application. For approvals, the notice states the application has been approved, the grant amount, and the purpose for which the grant has been made. For denied applications, the notice states the application is denied and reasons for the denial. In all cases, the notice informs the applicant of the right to appeal the decision to the Hearing Officer, Division of Welfare and Supportive Services, [REDACTED], Carson City, Nevada 89706-7924. Appeals must be made within 20 calendar days of the date of notice.

**G. APPEAL PROCEDURES**

The Division Hearing Officer considers each appeal within 20 calendar days of receipt. All decisions made by the Hearing Officer are final. Each applicant is notified in writing of the appeal results.

**H. DISBURSEMENT PROCEDURES**

The IFG Program Manager coordinates with the State Controller's Office to ensure all grants are disbursed within 5 days of approval by the Administrative Panel, the Hearing Officer, or the Division.

**I. VERIFICATION OF GRANT EXPENDITURES**

A representative sampling of not less than 5 percent of disbursed grants is selected by the IFG Program Manager for review. The purpose of the review is to verify grant funds were used to meet the necessary expenses/serious needs for which the grant was made. Cases in which grant funds have NOT been used appropriately are referred to the State Attorney General for collection/possible prosecution.

**J. REPORTS**

The directors of all designated agencies provide the State Coordinating Officer with such reports as he may require.

**K. AUDITING**

The IFG Program Manager ensures a state audit of all disbursements, including those for administrative expenses, is performed by the Division. He/She also ensures necessary program and fiscal audits required by the Audit Division, State Legislative Counsel Bureau, are performed. All disbursements for which the state requests reimbursement are subject to federal audit in accordance with the Single Audit Act of 1984.

**107 TIME LIMITATIONS**

Each time the IFG Program is implemented, the following time limits are adhered to:

- A. Applications are accepted for 60 days following the date the major disaster was declared.
- B. Applications filed after 60 days, but within 90 days following the date the major disaster was declared, are reviewed by the Division to determine if the late filing was a result of extenuating circumstances or conditions beyond the control of the individual or family. If it is determined good cause existed for the late filing, the application is accepted. If good cause does not exist, the application is rejected.

- C. No application is accepted when filed more than 90 days following the date the major disaster was declared.
- D. Administrative activities, including the submission of the final reports, the state audit report and vouchers to the FEMA Regional Director are completed within 180 days following the date the major disaster was declared.

**115 VERIFICATION**

Necessary expenses or serious needs listed by the applicant must be verified to determine: (1) the expense or need is disaster-related; (2) assistance from other governmental programs is unavailable or is insufficient to meet the necessary expense or serious need; and (3) assistance from other means has not been received or refused.

All findings must be verified by the eligibility caseworker when possible. For example, receipts for services rendered or estimates of work to be performed must be obtained and attached to this form. In addition, a complete summary of facts related to the case should be entered in the space provided (Section G, Comment). All other assistance must be verified; a central file is available to determine receipt of other assistance. A continuous coordinated effort of all state agencies is necessary to keep this file current.

**A. MEDICAL COSTS**

**1. ALLOWABLE MEDICAL COSTS**

- a. If there is private insurance and/or public insurance coverage (e.g., Veteran's Benefits, Medicaid, Medicare, Red Cross, Blue Cross & Blue Shield or Hospitalization), allowable costs include the deductible and the amount above what the private insurance and/or public coverage will pay, up to a maximum of \$12,900 per individual or family.
- b. If there is no private or public insurance coverage (e.g., Veteran's Benefits, Medicaid, Medicare, Red Cross, Blue Cross & Blue Shield or Hospitalization), actual costs up to \$12,900 per individual or family may be allowed.
- c. Allowable costs are care or services required as a result of the disaster. When hospitalization is required, only care in a semi-private room or ward is allowed unless care in a private room is required. A certification by the attending physician must be made before care in a private room is allowed.

**2. VERIFICATION OF MEDICAL NEED**

- a. The individual or family must provide a statement from the attending medical practitioner(s) and/or medical institution(s) as to the necessity for medical service. The statement must contain the type of medical service needed and a cost for each medical service.

- b. The individual or family must provide proof as to the amount of payment by the public agency or private insurance carrier. Additional information about coverage may be requested by the verifier from the insurance carrier or public agency.
- c. The individual or family must provide a statement from the attending medical practitioner(s) and/or medical institution(s) which certifies the injury or illness is a direct result of the disaster.

**B. FUNERAL EXPENSES**

**1. ALLOWABLE FUNERAL EXPENSES (Must be result of the disaster)**

- a. If there is burial coverage available, the grant will only include the actual cost of burial above what the insurance allows but not to exceed \$12,900.
- b. If there is no burial coverage available, the grant amount will include the actual expense up to \$12,900.

**2. VERIFICATION OF FUNERAL EXPENSES**

- a. The individual or family must provide a statement of uncovered cost from the funeral director.
- b. The individual or family must furnish information as to burial insurance or other coverage (e.g., Social Security, Veteran's Administration) to determine the amount of burial coverage needed.

**C. HOUSING REPAIR**

Normally, housing needs are met by the Temporary Housing Program. In some cases, grants may be authorized for minimal emergency repairs of permanent dwellings for protection of the dwelling to prevent further damage.

**1. ALLOWABLE COST FOR HOUSING REPAIR**

- a. Essential repairs are allowed for damage to a dwelling caused by a disaster such as a tornado or flood. The total allowable maximum coverage cannot exceed \$6,100.
- b. If the dwelling is covered by private insurance, flood insurance or other type of public coverage, the allowable cost is the deductible (if applicable) and the amount of uncovered cost up to a total maximum of \$12,900. Grants are limited to owner occupied primary residence.

- c. If the owner is reimbursed by insurance and/or any other grant, IFG Program payments can be made for the uncovered cost; however, the uncovered cost cannot exceed \$6,100.

**2. VERIFICATION OF NEEDED HOUSING REPAIR**

- a. An on-site inspection will be made of the dwelling by the verifier. If necessary, the owner must provide a statement from a building contractor the dwelling is structurally sound and is worth repairing.
- b. If the dwelling is repairable, the owner must provide two (2) itemized estimates of labor cost and building materials.
- c. The applicant must provide proof of flood insurance (in a flood hazard area) and certify the policy will be maintained for the life of the house. Funds to pay the first year's insurance premium will be included in the total grant. Proof flood insurance was purchased must be provided within thirty days from the date the grant is awarded.
- d. Any repairs done previously by the owner must be verified (bills, etc.).

**D. HOME BUILDING**

**1. ALLOWABLE COST FOR REPAIRING/REBUILDING HOME**

- a. Cost for repairing/rebuilding a dwelling if destruction was caused by a disaster is allowed. The total allowable maximum coverage cannot exceed \$6,100.
- b. If the dwelling is covered by private insurance, flood insurance or other public coverage, the allowable cost will be the deductible (if applicable) and the amount of uncovered cost up to \$6,100.
- c. If the owner is reimbursed by insurance and/or any other grant, an IFG can be awarded for the uncovered cost. The uncovered cost cannot exceed \$6,100.

**2. VERIFICATION OF NEED FOR REPAIRING/REBUILDING HOME**

- a. Proof of home ownership. Possible sources: assessor's office, tax receipts, title/deed, confirmed FDA loan or any other loan. Verifier needs to note date and source.
- b. An on-site inspection will be made of the dwelling by the verifier.

- c. The owner must obtain two (2) estimates for rebuilding including labor cost and building materials.
- d. A statement from the public or private insurer must provide the cost to be assumed by them. The amount of the grant is then determined. This is done during grant verification.
- e. The owner must provide proof of flood insurance (in a flood hazard area) and certify the policy will be maintained for the life of the dwelling. This proof must be provided within thirty days from the date the grant is awarded.

**E. CLEANING AND SANITIZING**

**1. ALLOWABLE COSTS FOR CLEANING AND SANITIZING**

Cleaning and sanitizing of real or personal property is an allowable cost. This includes cleaning of the dwelling if there is debris in part of or throughout the dwelling. This also includes cleaning of personal or household items. Sanitizing and cleaning may be necessary to prevent ultimate destruction of the property.

**2. VERIFICATION OF CLEANING AND SANITIZING NEED**

- a. An on-site inspection of Welfare staff is made to verify the need for cleaning and sanitizing. Payment to alleviate a health safety hazard outside of the dwelling must be verified to be an allowable cost.
- b. If public or private insurance coverage is available, a statement of uncovered cost is needed.

**F. PERSONAL PROPERTY**

**1. ALLOWABLE COSTS FOR PERSONAL PROPERTY**

- a. The cost of repair is allowed if personal property is usable and repairs will make the item functional. The individual or family must obtain itemized estimates for repair if requested. When personal property is insured or covered by a public agency, a statement from the insurance carrier or public agency is acceptable to determine allowable expenses.

- b. Replacement is allowed when eligible personal property is not usable and must be replaced, or if replacement is less expensive than repair. Replacement costs are allowed based on current itemized cost estimates. If personal property is insured or covered by a public agency, a statement from the insurance carrier or public agency is acceptable to determine allowable expenses.
- c. Current written price estimates will be obtained by the applicant. (Prices in current nationwide department stores will serve as the guide.) The applicant should not dispose of damaged items or clothing until damage is verified.

This may include specialized or protective clothing or equipment essential to or a condition of a wage earner's employment.

Unusual or exceptional situations are referred to the DWSS Central Office for a decision.

- d. If the individual or family is covered by insurance or public coverage for personal property loss, the allowable cost is the deductible (if applicable) and the uncovered cost of replacement up to a maximum of \$12,900.
- e. If the individual or family is not covered by insurance or public coverage for personal property loss, the allowable cost is the actual replacement or repair cost up to a maximum of \$12,900.

## **2. VERIFICATION OF PERSONAL PROPERTY LOSS**

- a. An on-site inspection will be made to determine personal property damage or loss constituting a serious need or necessary expense. The allowable cost is based on the cost of repair or replacement of the personal property.
- b. A statement from the public or private insurer must be obtained showing the cost to be assumed by them. The amount of the grant is then determined.

**G. TRANSPORTATION EXPENSES/NEEDS**

1. If the need for transportation is the direct result of the disaster, grants to provide transportation by public conveyance may be given.
2. Grants may be given to repair, replace or provide private transportation if the loss or the need for the transportation is the direct result of the disaster and public transportation is not available or is inadequate.
  - a. Public Transportation - The grant amount is limited to the period during which transportation is required, not to exceed one year from the date of declaration of the disaster.
  - b. Private Transportation - The grant amount is based on the requirements of the individual or family and may include any type of conveyance common to the society or culture.

**H. REPLACEMENT OR REPAIR OF MOTOR VEHICLES**

1. ALLOWABLE REPLACEMENT OR REPAIR COST OF MOTOR VEHICLES
  - a. Replacement or repair of a motor vehicle for use in connection with the individual or family's essential and basic needs.
  - b. REPLACEMENT means the most inexpensive vehicle that is in good repair and operational. If the individual or family has private insurance coverage or public coverage is available, the replacement cost including the deductible (when applicable) will be costs above insurance coverages or assistance from other agencies not to exceed \$6,100.
  - c. Repair cost is allowed up to \$6,100 unless the motor vehicle is considered a total loss in which case replacement is necessary. If the individual or family has private insurance or public coverage is available, the cost allowed including the deductible (when applicable) shall be those costs above insurance coverages or assistance from other agencies not to exceed \$6,100.
  - d. Minor repairs for appearance only are not eligible. Minimum mechanical or body repairs to make the vehicle operational and meet state safety requirements are eligible.

**2. VERIFICATION OF NECESSITY FOR REPLACEMENT OR REPAIR OF MOTOR VEHICLE**

- a. An on-site inspection is mandatory to determine the need for replacement or repair. A determination must be made the vehicle was used in connection with the individual or family's essential and basic need. The place of residence in relation to work and the type of work is evaluated to determine eligibility for the requested repair or replacement of the vehicle.
- b. For repair and replacement, itemized bids on cost of replacement and repair may be secured as needed. For individuals who have private insurance or public coverage, an itemized written statement from the insurance company or public agency of their cost estimates must be secured. The insurance or public agency must furnish the amount of coverage they will allow so a determination of the deductible (if applicable) plus uncovered cost to be allowed in the grant can be made.
- c. Ownership of vehicle prior to and after the disaster shall be verified.

**I. RENTAL ACCOMMODATIONS**

Rental accommodations may include hotel, motel, or other temporary accommodations.

**J. COSTS NOT ALLOWED**

- 1. Business and Business Inventory Losses
- 2. Economic Injury Losses
- 3. Farm Operation Losses
- 4. Debris Removal (Private Lands & Waters) except for health or safety hazard
- 5. "Cosmetic" Repairs to Real or Personal Property
- 6. Improvements to Real or Personal Property
- 7. Landscaping (except protective measures)
- 8. Real or Personal Property used solely for recreation

- 9. Tools for Self-Employment
- 10. Pools (only if a health function – doctor’s certificate can verify need for this pool)

The verifier ensures all forms are completed and any unusual circumstances are documented.
